❖ INTRODUCTION ❖

WE take pleasure in presenting the following catalogue of a few of the many horse goods to be found in our establishment.

Everything is printed as plain and concise as is possible in a book of this nature, and in ordering, kindly give the **NUMBER** or description of article, instead of tearing out the illustrations.

As to the character of our stock, we feel it is superfluous to speak; in this connection we will only remark, that where it has been possible to improve or change the quality or styles for the better, we have done so.

Assuring you, that if favored with your orders, they shall have our prompt and careful attention, we remain,

Yours Faithfully,

R. S. LUQUEER & Co.

NOTE.

RICES and terms subject to change without notice.

All claims for errors must be made on receipt of goods.

Invoices not paid at maturity will be subject to sight draft.

When ordering Horse Boots, Bits, Sandals, Blankets, Sheets, etc., etc., kindly inform us, if wanted, small, medium or large; by so doing you will save the time and expense of exchanging.

If any of our goods do not prove entirely satisfactory, return them at once, as we wish to please in every respect.

In ordering Harness, please mention if Breast Collar or Hame Collar is wanted; also give the girth measurement and size of collar.

Pole Straps, Tie Straps, Letters, Monograms, Crests, and Saddle Housings are invariably Extra.

Russet Harness of all grades and styles.—Either on hand or made “to order.”

Prices, ten per cent. advance over same grade in black leather.

Our Goat Harness is so arranged as to fit either small, medium, or large *Goats*.

Double Harness, built with Breast Collars instead of Collar and Hames.

No. 2.

SHERWOOD'S NOVELTY HARNESS.

The following Cut represents Our Harness in Detail, and is Just What We Usually Sell as a Partial Set.

Plowing a pleasure, and reduced to correct scientific principles. A single Chain which takes the place of four Traces.

The above is the result of years of experience and the verdict of thousands of intelligent farmers, that have bought and are using this Harness, and will use no other. Can be used with your old Collars, Bridles and Reins. An excellent Harness for hauling stones, logs, etc. No Whiffle-Trees required.

HAUGHEY'S INTERFERING DEVICE.

This device has never FAILED to STOP the most OBSTINATE CASE OF INTERFERING, and in most cases CAN BE DISPENSED with after using from TEN DAYS TO THREE WEEKS. It is the only device ever invented that will produce THESE RESULTS. IT APPEALS TO THE HORSE'S INTELLECT, and as he can think of only one thing at a time, it is a CONSTANT REMINDER. No horse owner or horse breeder can be without them who studies his best interest. They are invaluable to horse raisers, they will SPREAD THE COLT'S GAIT and make him A WIDE TRAVELER. Every Horseman will understand the merits of them when seen. They do not CHAFE THE LIMB by collecting SAND AND GRIT. They are HIGHLY RECOMMENDED by Horsemen and Horse owners.

To be used in Pairs only. Can be used on front or hind legs. Sent to any address by mail on receipt of \$2.00.

Pat. March 20th, 1888.

FEED BAGS. THE CHAMPION FEED BAG.

Patented April 9, 1889.

No. 15, Wood Bottom, PRICE,

“ 16, Leather “ “

“ 17, “ “ and Shield, “

OLD STYLE.

Our “**CHAMPION**” Feed Bags, which are now meriting *most popular* favor among Teamsters and Truckmen, contain four grommets instead of the ordinary two, one extra rope and back seam leather brace. This combination involves and necessitates **extra** cost in manufacture and material, but they are **universally** acknowledged to be the **CHEAPEST** Feed Bag in use, because of their durability in **wear**, and from their peculiar construction in combination with the *Extended Pocket* prevents the possibility of *wasting food*. **One** trial will most **convincingly** demonstrate the **superior** excellence of the **CHAMPION** over **any** Feed Bag in the market in **comfort** while feeding, **wear** and **preventing waste**.

BITS.

THE BRITT AUTOMATIC SAFETY BIT.

Patented Feb. 5, 1889.

An absolute safeguard against Horses running away, and an immediate cure for *Bolters*, *Pullers*, *Hard-mouthed* and *Vicious Horses*.

It is absolutely harmless to the Horse.

The greatest invention of the age for the control and subjugation of the Horse.

No private family or Gentleman's turnout is complete without the Automatic Safety Bit.

PRICES:

Riding Bit, - - - - -

Driving " - - - - -

Coach " - - - - -

Adjustable to any Size Horse's Nose.

All Bits heavily Nickel Plated.

NEW YORK, December 16, 1889.

DR. L. P. BRITT,
New York City.

DEAR SIR :—I take great pleasure in adding my testimony in praise of your wonderful Automatic Bit. I believe I have the worst pulling horse that ever wore shoes, and nearly every known bit has been tried on him, all of which have had no effect, and I was about to give it up; but I am most happy to say that I have now conquered him, and would rather pay \$100.00 for your bit than be without it. I believe it to be the *most valuable* invention for horses ever known in the world, and too much cannot be said in its favor.

Truly yours,

L. H. SOUTHWICK.

Vice-Pres. and Treasurer
UNIVERSAL AUTOMATIC LUBRICATING CO.,
18 & 20 Broadway, New York.

GEO. W. THYM,
JEWELRY AND SILVERWARE CASES,
26 Harrison Ave. Extension,

Boston, December 8, 1889.

MESSRS. R. S. LUQUEER & Co.,

New York City.

GENTLEMEN :—Enclosed please find check for the Britt Automatic Safety Bit, which I think is the best article so far for easy driving, as I have tried all other appliances without success.

Yours truly,

GEO. W. THYM.

BITS.

GREEN'S EXTENSION BIT, For opening the mouths of Animals.

ADVANTAGES.

1. The Bit can readily be used by any one.
2. It is instantly operated with one hand.
3. With it the mouth may be opened as much or as little as desired.
4. Its action may be made so gradual and gentle as not to excite the most timid, nervous or vicious beast.
5. It may be used with perfect safety to the animal and operator.
6. It allows the free use of the tongue in swallowing any medicine placed at its roots.
7. It avoids the waste of any medicine administered.
8. It removes any danger from the breakage of bottles or instruments.
9. It is so strong and simple that it will neither break or get out of repair.
10. It is so inexpensive as to place it within the reach of any person who owns a horse.

PRICE,

Nickel, PRICE,

THE MARVIN PATENT HORSE DRENCHING BIT.

Endorsed by all Veterinary Surgeons who have seen it.

The Reservoir takes apart, the top and bottom unscrewing from the graduating glass, and therefore can be easily kept clean.

We claim that in using this Drenching Bit, the annoyance, pain and frequent injury resulting to horses by the old system of drenching to be entirely done away with, and instead a quick, cleanly and absolutely safe method of giving liquid medicines perfected.

IROQUOIS HEALING OINTMENT.

This Ointment is a Certain Cure for Scratches, Thrush, Cuts, Galls, Old Sores, Ulcers, Etc., Etc., on Horses and Cattle.

While there are a great many preparations for this purpose, some of them very good and others useless, the best of them fall far short of meeting the wants of those who have the use of Horses.

The manufacturer of this Ointment, after a number of years' experience with horses, finds that there is a great demand for a preparation that will heal the sore without being compelled to lay the Horse up.

While there are a great many preparations that will heal when the sore does not occur under the collar or saddle, they utterly fail to cure when the sore occurs under either of those places. Ninety-nine sores out of every hundred occur under the collar or saddle; and, therefore, ninety-nine cases out of every hundred where the horse cannot be cured without depriving the owner of his services for two or three days, which is very detrimental to him in his business.

The manufacturer of this Ointment most emphatically asserts that *this Ointment will cure the worst cases of all such sores, without depriving the owner of the use of his horse for a single day.* It requires but from four to six applications to complete a cure in the worst cases.

It will remove all corruption and proud flesh in twenty-four hours after the application. It heals from the bottom of the wound. If the sore is covered with a scab, in twenty-four hours after the first application the scab can be rubbed off with the hand.

N. B.—No washing is required.

HORSE

SENSE.

Unless you groom him well and watch his feed,
 He can have neither beauty, strength, nor speed,
 Nor glossy skin, nor step as light as air,
 When you would ride behind "a spanking pair."
 Say, why has Bonner, Vanderbilt, or Keene,
 Some of the finest horses ever seen?
 Ask Mace, or Splan, or Murphy, and they'll say,
 "Because they're fed on more than oats and hay"—
Harvell's Condition Powders, they'll confess,
 Now underlie the horse's whole success.
 Or ask him who has ridden all day long,
 Why is his horse so fresh, and cool, and strong.
 He'll say, as he rubs down his noble steed,
 "I give him **Harvell's Powders** with his feed."
 Or ask the sturdy tiller of the soil,
 How is it that his teams withstand such toil?
 He'll say that for endurance, strength, and size,
 In **Harvell's Powders** the whole secret lies.
 And so it is, where'er our footsteps lead,
 These Powders serve the horse in every need.
 Preserve his health, and strengthen every thew,
 Lights up his eye, and makes him staunch and true.
 And stable-men should use them, one and all,
 If they would have no sick or empty stall.
 No other powders have been found to yield
 Such grand results for barnyard, road, or field.
 Then let all growers pass the tidings round,
 "Use **Harvell's Powders**, and all's safe and sound!"

SPEAR'S BRASS BLADE EUREKA HORSE
CARD, CURRY COMB, AND
SWEAT SCRAPER.

Easiest, Quickest, and Best. PRICE,

THE SPRING CURRY COMB.

Patented in U. S. July 9, 1889.
Foreign Patents in Germany, France,
Belgium, Great Britain
and Canada.

The flexibility of the Loops makes this Comb a wonderful device.

A FEW POINTS.

“It is as soft as a Brush,” because the loops *give* and enable the combing surface to get down into the hollows and slip over the elevations, to the great comfort of the animal and the great convenience of the hostler.

“It is a perfect self-cleaner,” and *“The best shedder known,”* because it is a spring, and the vibration of the coils readily frees them from all dirt and hair.

“It cleans a horse quicker and better than other combs,” because it has three hundred and twenty teeth which do not *track*, and because it “does not grate harshly over the surface,” but accommodates itself to any and all parts of a horse, from his ears to his heels.

“It is a very strong and well made comb,” since the coil is made of very tough spring steel, and the shank is cast malleable and *all parts are riveted together.*

“Its teeth do not bend out of shape” from rough usage, because of its circular form, and because it is elastic.

“The back is an excellent sweat scraper.” The reasons are apparent.

Endorsed by experts and the trade everywhere.

WINTER LAP ROBES.

As the designs and styles of these robes change every year, it is very difficult to describe them all in this space.

We will therefore say, that the *latest* patterns can be selected at our Establishment, or, if left to our judgment, we will ship what we think the most desirable.

We also carry a very fine line of Mohair or Silk Plush Robes.

THE DIAMOND RATTAN COVERED BROOM.

This is the best Broom ever invented for use in Stables or wherever there is heavy sweeping. It is made of Broom Corn with a covering of Rattan Reeds on the outside, which gives both scraping and sweeping qualities to the Broom, and the desired stiffness. They are sewed with galvanized wire, and there is no twine to rot away and let the material loose.

The Broom Corn does not wear away and leave the Rattan sticking out as in Rattan Centre Brooms, but the Broom wears perfectly even and will last until the material is worn up to the handle.

PRICE,.....

BARTLETT'S ANTI SHAFT RATTLER.

Made of the best rubber, with wedge and screw, and will outwear two of the ordinary rattlers.

PRICE,.....

FLORIDA SHEEP WOOL SPONGE.

We are now getting our sponge *direct from Florida*, and having a careful agent at that point, can offer a superior article to those depending upon sponge dealers.

We keep but one grade (the best we can buy).

PRICE (per lb.),.....

EGG EYED HARNESS NEEDLES.

The Egg Eyed
Harness Needle is
our own improve-
ment, and is
manufactured to

meet the growing demand for a har-
ness needle that can be easily
threaded, and at the same time will not cut the thread. Our
Egg Eyed Harness Needles meet every requirement in this respect,
and are commended by the leading dealers in America.

EGG EYED HARNESS.

The Drilled Eyed Harness Needles are old reliable goods. They
are made of the finest select spring steel, and are the same qual-
ity as our Patent Helix Needles. We have sold them to the
American trade for forty
years, and the increasing
demand demonstrates their
superiority.

" Saddle Pads,

HAIR SHEDDER CURRY COMB.

PRICE, Hair Shedder only,

The Hair Shedder Curry Comb is composed of a corrugated strip of extra fine India rubber, moulded into the form of the tips of the human fingers. The Hair Shedder proper is securely attached to the back of the *finest quality of Steel Curry Comb*, thus being always in place and at the same time forming a finger-grip on the Comb.

The tractive and adhesive quality of the rubber, together with its particular form of construction *thoroughly removes the shedding coat* in molting season, removes all dirt, dandruff and other effete matter from the hide, prevents the loose hair from flying into the face and upon the clothing of the driver, saves time in grooming and greatly improves the appearance and condition of the horse.

PRICE, Curry Comb and Hair Shedder only,

PROTECTOR CLOSED.

Save your Horses and
double their value

by using

PROTECTOR DISTENDED, SHOWING THE DOUBLE SPRINGS.

THE "MOGUL" DRAUGHT SPRINGS.

The Mogul Draught Springs are to be attached to the traces, at the whiffletrees or at the hames.

They completely obviate all sudden jerks and strains in passing over holes and impediments on the road.

They actually increase the working power of the horse fully twenty-five per cent.

Mogul Springs attached to the whiffletrees by open links replacing the rings, which are cut away. The eye and hook of the Spring being at right angles.

PRICE (per Pair),

They absolutely prevent all injuries from the collar, ruptures, and the bursting of blood vessels from sudden violent strains.

They are made of different elastic strength, to suit *any kind of vehicle*.

All Springs sold are guaranteed.

INTERIOR LINK CLOSED.

POWERS' * LEATHER * RENEWER

**FOR RENEWING ALL LEATHER GOODS,
HARNES, CARRIAGE TOPS,
Traveling Bag and Trunk Manufactures,
Boots, Shoes, &c., &c.**

THIS LEATHER RENEWER is the most perfect article of the kind in use, containing nothing that will in any way injure the most delicate French kid, or any other leather in use. Renewing all soiled or worn leather, and giving a bright, new surface, soft and flexible, and wear much longer than any of the Dressings in use.

DIRECTIONS.

Have the leather clean and dry. Apply with a clean, soft sponge, doing very little rubbing. If a second application is required, let the first be perfectly dry before putting on the second. Do not mix with anything.

No Manufacturer of Leather Goods, Harness Makers, Livery or Private Stable can afford to be without it.

PUT UP IN GALLONS AND BARRELS FOR FACTORY USE.

PRICE,

HORSE TAILS, ARTIFICIAL.

Where horses have lost the hair from their tails, we can furnish *Artificial* Tails to suit the color of the animal.

These false tails are so perfect as to defy detection, and afford the horse every advantage of the natural appendage.

Price on application. State color desired.

FENTON'S ANTI TAIL SWITCHER.

Pat. Feb. 27, 1883.

The device effectually prevents the lifting the tail over the lines or in the face of the driver when in the sulky, but allows perfect freedom of the tail, laterally, so that the animal can defend himself against flies.

To owners of "Tail Switchers" this article will prove indispensable.

BLACKWELL'S of Oxford St., London, Patent Whalebone and Rubber Dumb Jockey and Breaking Cavesson.

COLTS AND UNTRACTABLE HORSES Broken by Kind and Gentle Treatment, Temperate and Easy Mouthed by using **Blackwell's Patent Whalebone and Gutta Percha Jockeys**, with Rubber Springs (of any length by tying the inside cord), and for exercising in frost, in boxes and in stalls; on Led Horses to prevent falling and broken knees. They yield easily if a Colt rolls over on his back, and he is not injured as with the old Wood or Iron Jockey. Used by the First Breeders and Owners of Horses. About 5,000 in use. The Dumb Jockey should not be kept on the Colt more than half an hour at a time, as he is apt to turn sulky, and it can be put on several half-hours in a day. With two dees on the side, the lunge reins are passed to the bit, and the horse may be driven or lunged round. This plan is adopted by most of the large breakers, and very little lunging is done.

Breaking tackle of all kinds; Cavesson Lunge Reins; Improved Straight Mouth Slide Check Breaking Bits with Players from 1 to 4 lbs. By placing two bags of shot weighing about 1 lb. each on the rings of the bit, the weight is increased to 3 lbs. or 4 lbs. When this bit is used, the Colt will not allow the weight to rest upon the lower jaw, but puts his nose in, until the weight is thrown entirely on the head, by which means he forms a fine crest, without pulling at his mouth and spoiling it.

Double spring hooks to attach the bits to the Cavesson or Head Collar in the stable. They save the Colt's ears being pulled about, as the head collar forms the bridle head. **Blackwell, Patent Saddlery and Harness Manufacturer to Her Majesty and the Prince of Wales, 469 Oxford St. (old No. 259), near the Marble Arch, London, W.** Prize Medals (1851, 1862), London, Dublin, 1865; the only First-Class Medal, Paris, 1855, for Saddlery; and Cologne, 1865.

THE SAFETY AUTOMATIC HITCHING STRAP.

NEW STYLE.

PRICE, COMPLETE,.....

OLD STYLE.

Since the time when animals became sufficiently domesticated to allow themselves to be tied, there has been a demand for a device to prevent the animal from being injured.

The constant getting a leg over the tie, standing back in the stable at full length of same, getting thrown or cast and bruising the body and limbs generally, reminds us daily of this need.

Possibly you have had no trouble in this way. It is always the unexpected that happens. The main reason you have avoided accident is that you have always tied your animal too short, and though by doing so you have saved the development of blemishes from bruises, it is very probable that you have promoted their development by strains. At any rate, you have developed a bad disposition, by worrying your beast and preventing comfortable rest.

Until now nothing has been offered to satisfy the demand, and remedy these evils. The **SAFETY AUTOMATIC HITCHING STRAP** is the article that does it, and we are prepared to supply you. It must be seen to be appreciated. It is very strong, cannot get out of order, and will wear as long as there is a manger to fasten it to. No accident can happen your beast in the stable if you use the self-adjusting strap, and it is exceedingly ornamental—malleable iron tinned, steel springs, heavy oak leather straps, tinned snaps and rings, blued screws $1\frac{1}{2}$ No. 20, packed in pasteboard boxes ready for use. The purchase of this Halter Strap and Adjuster is an economical investment for any person having a beast of any kind that must be tied. Moreover, it is humane—furnishing ease, comfort and absolute safety in any position, lying down or standing.

NEW YORK, June 20, 1890.

I have used a bottle of your Resolvent on a valuable horse that was slightly sprung. It worked very satisfactorily, and has so strengthened the tendons of his front legs that he is as good now as he ever has been, and I take pleasure in recommending this to be used in similar case.

Yours, very truly, (Signed), E. ROBINSON.
82 & 84 William St.

NEW YORK, June 10, 1890.

Your Remedies sold by me to the Erie Canal Boatmen have in every instance given perfect satisfaction to the purchaser. Few animals are subjected to such severe galls as are the horses and mules on the tow-path. Your Skin Lotion in every case when used as directed, has done its work of healing promptly and effectually, as many of the Canal Boat Captains will take pleasure in testifying.

(Signed), J. I. STEPHENSON,
22 South St., Boatmen's Supplies.

BALTIMORE, June 1st, 1890.

I have used your Stomachic Powders and Purgative Balls with the greatest success, and their equals are not on this market for doing their work. I have used your Alternative Fluid on a horse that had the heaves for five or six years, and now he is as sound as a dollar, and the horse is owned by the Sisters of St. Joseph's Hospital, Baltimore, Md. Also, your Anodyne is all you claim. I made a beautiful cure of a case of Diarrhoea, and I highly recommend all of your Remedies to the public as being first-class in every respect.

Yours Respectfully,
(Signed), DR. JAS. FOOTE, V. S.

BALTIMORE, Md., June 5, 1890.

It gives me great pleasure to recommend your Influenza Powders. I also find your other Remedies very effective in other diseases.

Respectfully,
(Signed), WM. H. CLARK,
Supt., Pimlico and Pikesville R. R. Co.

Many other Remedies, in addition to those above enumerated, are prepared by us.

Send for "THE HORSE OWNER'S HAND-BOOK," a concise and practical treatise on the most frequent diseases of horses and mules. Mailed free.
